STOCK AT THEIR BEST

JUST
ADD
WATER

COMBINATION TANK & TROUGH

✓ COOLER WATER

1/3 of the trough is shaded at all times keeping the water cooler.

✓ COMPLETE SYSTEM

All-in-one stock watering point. Internal plumbing fitted and ready to hook up at the bottom.

✓ CLEANER WATER

One of the easiest troughs to clean. Cleaner water means healthier stock.

HOW DOES IT WORK?

1. Water enters the tank via Brass Inlet
2. Water flows up the internal pipework via the Poly Riser
3. Tank water level controlled via the High Pressure Float Valve at the top
4. Trough water level controlled via the Low Pressure Float Valve at the bottom
5. Level indicator rises as tank fills

SUITABLE FOR: CATTLE, SHEEP, GOATS
