NOBILI[®] MULCHERS

Nobili has refined its design and manufacturing since producing agricultural equipment in 1945 and now operates under ISO 9001 quality certification. Nobili mulchers deliver high performance across diverse agricultural applications and suit a wide range of tractor horsepower categories.

Mulchers repeatedly cut grass, prunings and heavier organic material using a cutting bar and specialised blades that work together to produce a finer residue. The material is recut inside the chamber and evenly distributed, breaking down quickly into humus to improve soil quality and return non-productive land to pasture in a single pass.

Mulching recycles valuable nutrients — nitrogen, phosphorus and potassium — back into the soil, increasing nitrogen levels and reducing fertiliser needs. Applications include general clearing, weed control, pasture topping, orchards and vineyards, parks and gardens, roadside maintenance and stubble management.

TURBOSCRAM VINEYARD SPRAYER

SILVAN'S LATEST TURBOMISER SPRAYER, DELIVERS UNMATCHED COVERAGE AND WATER SAVINGS WITH A HIGHLY EFFICIENT, RELIABLE HYDRAULIC DRIVE FAN SYSTEM.

The TurboSCRAM features high-performance hydraulic drive centrifugal fans, engineered for powerful air velocity to ensure exceptional spray coverage. Drawing air from two meters high to prevent leaf blockages and sandblasting, each fan pairs with Silvan's proven 'wrap' air tube, creating optimal turbulence for superior vine canopy penetration.

GUIDANCE & CONTROLLERS

ADVANCED GPS GUIDANCE SYSTEMS AND ELECTRIC SPRAY CONTROL KITS DESIGNED TO ENHANCE SPRAYING PRECISION AND EFFICIENCY

AGRONAVE 7

The Agronave 7 is a complete GPS system with 7" display that provides enhanced visual guidance with a light bar and on screen guidance for spraying, spreading or seeding applications. The Agronave 7 is ISOBUS and autosteer compatible (available through licensing). Application information can be viewed in the cloud based ISOFARM application manager to see where you have sprayed, area covered and time spent.
